Company Overview

As your exclusive Emerson representative, Control Associates Caribe is proud to serve the Northern Caribbean region. We offer market-leading Emerson valves, actuators, regulators, and instrumentation products, as well as other well-known brands to deliver compelling, practical solutions to our customers. We provide experienced, local support, backed by best-in-class resources at our New Jersey automation center. In addition to several million dollars of inventory, our state-of-the-art facility offers distribution, actuation, assembly, testing, and repair capabilities for all our customers. Additionally, we have access to Emerson's unparalleled supply chain capabilities, including Quick Ship, as well as inventory from the entire North American network of Emerson Impact Partners. Our business thrives on our ability to solve your technical, logistical and sourcing needs, and we look forward to serving you.
